

Books For Kids

Join the Books for Kids program designed to provide kids daily access to books throughout the year. We want to motivate kids to help develop a love of reading, spark the imagination and provide tools for future success in school and beyond.

The Books for Kids program is the same program that the Iowa Braille School (IESBVI) has provided in the past. The Iowa Library for the Blind and Physically Handicapped will now be providing the Books for Kids Program to children across Iowa. The Library is excited to offer this program.

The program provides at least five Braille, print/Braille, large print and/or audio books each month to participants, including summer months. It allows for the child to choose the books they want in as many formats as they would like to receive. The books can be sent to the child's home, school and/or other addresses.

To join the Books for Kids Program just follow these steps:

1. **Complete Library Application:** If your child is not already a library patron, complete an application for service from the Iowa Library for the Blind and Physically Handicapped.
2. **Register:** Complete the Books for Kids registration form. This form will provide us with the information we need to send books to your child.
3. **Return Forms to the Library.** Use the address or email below.

Once we have received these forms, the library will begin sending books to your child. You can let the library know if there are changes in the books your child would like to receive, how often your child would like to receive books or changes in address information at any time.

Happy reading!
